

**Ministério da Cultura and Espaço Cultural Sinhá Prado**  
presents

**10th MOSCA - Cambuquira Short Film Festival**  
October 30rd to November 8th, 2015

### **THE FESTIVAL**

MOSCA – Cambuquira Short Film Festival - is focused on the diffusion of Brazilian and foreign audio-visual productions, as well as promoting a critical film-going public. The festival program includes Brazilian films screening, special programs of foreign movies, debates, workshops, exhibitions, children's activities and a bar-restaurant. Since 2005, MOSCA has been contributing to the revival of film-going rituals in this small town, while also providing and expanding cultural and artistic opportunities for the local population.

All the movies are subjected to the vote of the public, thus resulting in the year's winner. Since we are a very low budget festival, the prizes to the Brazilian films are given in the form of services from Brazilian companies. Because of that, the international award is a trophy and the recognition of our audience.

In 2015 we reach our 10th edition and, different from other years, the festival will have 10 days of length, opening space to new ideas for our programming.

### **DATES AND VENUE**

The 10th MOSCA will unfold from October 30rd to November 8th, 2015, in the Brazilian town of Cambuquira, located in the south of Minas Gerais, a place renowned for its naturally mineral springs. The festival is warmly held at Cine Elite - an old city cinema that had been closed for about 20 years, but which in 2001 was lovingly restored by the cultural institution "Espaço Cultural Sinhá Prado".

All the producers can submit their movies to our festival till **August 10th, 2015**.

# Service
